

# News or Fake News?

## Directions

Use the checklist below to **evaluate** the credibility of information you find online.

### Internet Investigator Checklist

✓ **Read closely.** *Does it make sense? Is it believable?*

Identify the main idea by analysing the text features and webpage, and by reading the text. Take note of anything that is surprising, hard to believe or that gives you a strong emotional reaction.

✓ **Analyse the source.** *Does it come from a credible, unbiased source?*

Find out information about the site owner and author by exploring the site and searching the web.

✓ **Look for corroboration.** *Do other credible sources say the same thing?*

See if the main idea and key points of the article are also reported by other credible sites.
